VOL. 57. No. 2

HONDO, MEDINA COUNTY, TEXAS, JULY 17, 1942.

READY FOR THE PRIMARIES

For about the nineteenth consecutive time, or since the adoption of the First Terrell Election Law in Texas, the Anvil Herald has prepared the ballots and the blanks for the holding of the Democratic Primary election. The election will be held July 25th this year, and as heretofore, the precinct chairmen of the various precincts must see to the holding of the primary in their respective precincts and must depend for help upon free volunteers. The executive committee and County Chairman furnish only the supplies. These are ready at the Anvil Herald office and will be turned over to any responsible party from the various precincts if called for here before they are turned over to the County Chairman, Mr. Jordan T. Lawler of Castroville. Interested parties can save him a lot of work by calling here at once for the supplies from their precincts.

Elsewhere in this paper is a "Sample" of the ballot as it will be voted in Precinct 16, South Hondo. In all precincts except the Devine Commissioner Precinct the ballot will be the same as shown in this paper except that where Mrs. Jungman's name appears as a candidate for Precinct Chairman the name of the candidate from your precinct will appear or else there will be a blank line for you to write in the name of your choice.

In addition to all this, in the Devine Commissioner Precinct No. 4 there appears the name of Mr. Bowman for Commissioner following Judge Neenan's name, and in Justice Precinct 5, the names of Mr. Secrest and Mr. Morris, for Justice and Constable respectively, follow Mr. Bowman's and all precede that of Mr. Lawler for County Chairman. Study the sample and be prepared to scratch all you do not want leaving only the one you do want unscratched under each office for which there are candidates.

It might be stated here that owing to duties incident to his connection with certain Federal agencies, Vernon P. King, who has served Precinct 1 at the courthouse for many years, has resigned as Precinct Chairman and it is incumbent upon the voters of that precinct to help Chairman Lawler secure a Precinct Chairman as well as volunteers to hold the Primary on July 25th.

COMMISSIONERS IN REGULAR SESSION MONDAY

Commissioners' Court of Medina County met Monday, July 13, for the regular July term, with all members present. The following proceedings were held:

The Court ordered that all public and private telephone companies be notified to refrain from throwing brush into public roads when cleaning their lines. Violators of this order will be prosecuted under the law.

Mr. Hardin, bond representative, was heard on the question of refunding \$40,000 of Medina County road bonds, due in 1949, and optional in 1941. The Court, after due consideration, agreed not to refund the bonds at this time, preferring to retain the optional feature of the bonds as they now stand.

The Court received the report of Judge H. E. Haass, Special Commissioner appointed to make sale of certain real estate owned by Medina County, and accepted and approved the sale of the Commissioner of the 16.63-acre tract of land out of Survey No. 144, A. Willmer, to Claude Gilliam for \$831.50, half cash and balance evidenced by one Vendor's Lien Note payable on or before one year from date, bearing 4% interest.

It was ordered that the GMC County truck be sold to Commissioner Precinct No. 4, for road work purposes, for \$547.00, and the Chevrolet County truck to Commissioner's Precinct No. 2, for road purposes, for \$870.00.

RANDOLPH OFFICERS ORDERED TO HONDO

Importance of navigation training for the army air forces is indicated by action of the Gulf Coast Air Forces Training center in sending two of Randolph Field's veteran public relations staff members to the new navigation school at Hondo.

Major Manning Seil, public relations officer at Randolph Field, and Lieut. Leslie W. Bland, one of the army's outstanding photographers, will go to the Hondo school in a few days for duty as public relations officer and photographic officer, respectively.

Major Seil, an instructor in journalism at the University of Illinois, has been at Randolph Field a year and a half. He succeeded Major William P. Nuckols as public relations officer for Randolph Field when the latter became public relations officer for the training center.

Lieutenant Bland was recently commissioned after serving about six years at Randolph Field as a non-commissioned officer and photographer. Working under Major Nuckols and Major Seil he made thousands of army pictures that were used in papers throughout the country in connection with the cadet procurement campaign.

The navigation school, now being operated at Kelly Field, will be moved to its new home at Hondo early in August. —San Antonio Light.

MEDINA COUNTY COURTHOUSE IS NOW COMPLETED

The W. P. A. Courthouse Improvement Project for Medina County was completed during the first week in July and received final inspection and acceptance by the Commissioners' Court at its regular July term on Monday morning of this week.

All offices in the two new wings of the building are now occupied and the additional room provided should serve Medina County's courthouse needs for many years to come.

The Commissioners' Court wishes

to inform the citizens and tax payers of the county that there will be no issue of time warrants or other evidence of indebtedness in this connection. All costs of improvements to the courthouse under the W. P. A. Project are fully paid for as well as all cost of new office equipment purchased and installed in the new additions.

The Commissioners' Court invites the citizens of the county to come and inspect the improvements to their courthouse in Hondo.

QUIHI NOTES

And for that the dream was doubled unto Pharaoh twice; it is because the thing is established by God, and God will shortly bring it to pass. Gen. 41:32.

Joseph, the convict, stands before the king. He is ready to listen, ready to interpret those dreams of Pharaoh, ready to show what the Lord will do to Egypt in the near future, and no might or money will prevent it, ready to offer proper counter-measures in the emergency, ready to do his share, somehow, somewhere.

The solemn and singular occasion does not swell his head. He is not the "boast or bust" type. Not a shred of swaggering, bravado or bombast about him. And how he might have had the birds of prophecy scream his glory! None of it.

You might even say, He is a poor business man, let alone a speculator in the modern sense. He does not haggle for a price. He might have asked for millions. And his advice and revelation is worth that to king and country. He might, at least, have asked a fat commission for his service, joining the dreary lot of profiteers. The king was rich; the big country had many tax-payers; the weak or woe of every single citizen is involved. He is a foreigner and he could not be charged with lack of patriotism. Much abuse he had suffered in Egypt, now is the time to square things up and insist on an immense compensation for physical and mental agony endured. A shrewd attorney, and such were always available, I'm sure, could have ferreted out a huge fortune from the government treasury, sufficient for both to live on easy street ever after. What a grand chance he missed! He does not even demand a gilt-edged guarantee for his future liberty, freed from the filth and fester of the dungeon. What's the trouble? Is he dull, unaccustomed to the ways of a money-mad world? Or is he governed by a spirit that makes him serve gratis with a gift of God for the benefit of his fellowmen, leaving the settlement to Him? Now and then such are found.

And the king narrates his dreams. Twice they are recorded in this chapter of Genesis. Read them over for your enjoyment and a better grasp of the interpretation. They are a masterpiece of diction. A literary gem, sparkling in the simple, terse, realistic and choice words. Yes, we read them over in the original Hebrew, with the primal fragrance and beauty untouched. The translation has similar merits.

It has always been astounding, what some can do with that alphabet of 28 letters and some 40 different shades and pronunciations. A child gets along easily with a hundred words for a while; some grown-ups have but 600 words in their vocabulary. Shakespeare is said to have used over 28,000 words in his dramas. Count them. A fair average is supposed to be found in the use of 2500 words. More astounding is the fact that Holy Scriptures, excellent in number and variety of words, plain, comprehensive words, has been the first and foremost tutor and helper in building up the wide scope of language used by our best and deepest speakers and authors the world over. It's God's vocabulary for all that is really valuable in time and eternity, aside from its literary beauty.

The words of interpretation by Joseph are likewise of great, if not greater, literary charm. Certainly overwhelming in the substance of what he reveals. Every detail of the dreams is shown in its higher import and significance. Can you imagine the picture of the drawn features, of the heaving chests and the eyes, almost glassy with wonderment, of the king and the whole austere assemblage? Anybody dazing?

And not a moment of hesitation, no period for advisement, no if and but, no guesswork, no hiding behind mysterious or ambiguous words. An immediate lifting of the veil. The future of the next 14 years stands disclosed, the double dream, he says, points to it. How does he know? How is that knowledge imparted to him? There was no ghost-writer, like our radio celebrities employ, no prompting, no secret source of occult science, no medium, no impos-

ter. Yes, how did God inspire His men, Joseph, the prophets, the apostles? That's His affair. We are to believe them, as did the king and his illustrious surroundings on that remarkable day.

Mrs. E. Walch has returned from Fredericksburg much improved. Also Mr. John G. Schuele could leave the Nix hospital after his eye operation. —Mr. Earl Balzen almost became a patient due to a rattler. Presence of mind and first aid prevented serious consequences.

There is a good deal of rotation and emigration going on out here. About a dozen have found employment at the airfield with temporary headquarters at Hondo. The stores needed additional help and took on several people from here, like Mr. E. H. Hartman and John Henry Boehle; Miss Darwin Haby working for some time there already. San Antonio still exerts its attractive spell and a goodly number moved over there, chiefly for working and less for sight-seeing. Among them, the Misses Crystal and Viola Boehle, for quite a while already, also Miss Nora Brucks, and now followed up by her sister, Miss Annie. Miss Lucille Boehle looks over the beauty spots of Luling and is preparing for a new profession. A frequent visitor out here, Harold Weeber, took up his work at Honolulu, Hawaii, not exactly a pleasure spot just now. Mr. Anton Grell, we noticed, has found employment at the post office.

Not really a full house, but quite a fair sprinkling of visitors took in the last Luther League program, and practically all the assigned numbers were delivered. The church choir again appeared in full force. It goes without saying that you are welcome at these occasions to secure that mental and spiritual "flavor control" for the new week. Try it. The tentative program for August: Select readings, Miss Hulda Geiger, Mrs. John G. Bohnen, Miss Ethel Marie Lindeburg; selected vocal numbers, Mr. Clarence Bohnen, Mrs. Herman Gerdes, Mr. Walter Grell; instrumental number, Mrs. Clarence Bohnen. Good weather and good will for you!

Announcements for July 19: Sunday school and Bible class at 9:30, German service at 10:30 A. M. For July 26: German service at New Fountain at 11 A. M. "Bless thou the Lord, O my soul. Praise ye the Lord" in His temple! And welcome! —C. W.

THE LOW DOWN FROM HICKORY GROVE

If I was down there on the Old Potomac lollygagging around, trying to keep in with whoever seems to be ruling the roost for the nonce, I would sleep with my boots on I would be ready to switch to some other camp when the wind changes. What are you getting at, says Henry. Well, I says, it is this Dies person from Texas.

Mr. Dies has been kicked around from pillar to post—be-littled and insulted. But he keeps on boring in. He sure is a Texan. I don't crave to tackle any Old Texas Longhorn that is on the war-path. Davy Crockett of San Antonio was bad medicine. And Old Nance Garner, he is no sissy either. I only get one thing against Cactus Jack. He helped put over the Holding Company Act in Congress. Instead of curing everything, it has upset the applecart versus vice versa.

But Dies, I started on him. He has been warning for years as to what to expect from the Bundists, etc. He is gonna have a following and be honored some day, as Head Man on looking around the corner.

Yours with the low down,

KEEP GOVERNMENT THE SERVANT, NOT THE MASTER

After the war, the salvation of this country and the free world will depend upon unleashing the enormous energies and resources of free men and free industry. It is necessary to have a semi-fascist economic system to win the war; it will be necessary to return, with full vigor, to a free economic system to win the peace.

Paul F. Cadman, economist of the American Bankers Association, recently touched on what lies ahead. "A considerable number of modern economic theories are now in the process of liquidation," he said. "Sound finance is like sound government; it rests upon the integrity of the promiser. One reason we can bear a \$200,000,000,000 debt is that those who put up a large part of the money have unlimited faith in the contract under which it is borrowed. Another reason we can support a \$200,000,000,000 debt is that we have the productive capacity to produce enough wealth after the war to service that debt, to meet the interest charges on it, and, ultimately, to pay it. But that task envisages an industrial and agricultural output greater than anything heretofore achieved. It means world markets, as well as domestic markets. It means a new economic statesmanship fully conscious of the fact that the ghost of isolationism has been laid. It means an independent American people, released from the dead hand of bureaucracy—freed from the multiplicity of executive controls which are a necessary but nonetheless un-American adjunct of war.

"It means the rebirth of initiative, courage, and dare, in the field of enterprise. . . . At this moment, 'We have all of life to win or all to lose.' We shall never win it by pessimism or despair. We shall surely win it by faith and confidence in our destiny."

Dictatorial government, in times of peace, is in itself a form of pessimism and despair. It is based on the premise that liberty, freedom and individualism have failed, and that a form of slavery for all men is the only solution. The whole history of this great nation is a magnificent denial of that terrible dogma. It is an affirmation of the fact that a free people can outstrip the world in any undertaking.

Some people think that the term "free enterprise" refers to "big business." It does. And it also refers, with equal force, to a "one man business," to "middle-sized business"—to all business of all kinds. The true strength of this country lies in the cumulative power, the cumulative resolve, the cumulative ambitions, of every man who works, every man who employs, every man who invests, every man who looks ahead to great achievement.

After this war, we will have the greatest industrial plant the world has ever seen. Then, if we are to win the peace, that plant must be freed of all the authoritarian controls forced on us by the war. Our

RESOLUTION PASSED BY THE CITY COUNCIL
At a meeting of the City Council on the evening of July 14th, 1942, the following resolution was discussed and passed:
Knowing that the properties of the San Antonio Public Service Company, which company is furnishing practically all the electrical current used by the residents and businesses of the City of Hondo, is now involved in litigation and the corporation holding and owning the controlling stock of the San Antonio Public Service Company has been ordered by the Federal Government to dispose of this stock and also knowing that the City of San Antonio is anxious to purchase that part of the properties (bldg. and serving the City of San Antonio, and that other cities being served by the San Antonio Public Service Company are also trying to buy that part of the distributing system in their respective cities.
The City of Hondo is also being served by the San Antonio Public Service Company and be it resolved that the City Council of the City of Hondo is anxious to purchase, and has been negotiating for the purchase of the distributing system of the San Antonio Public Service Company, in so far as the system serves the City of Hondo and the immediate community.
There is no reason why the City of Hondo should not own its own electrical distributing system and operate same as to further serve the interest of its own residents and businesses. The City aims to try and prevent any other private or government organization from getting the control of the local system.
JNO. A. HORGES, Mayor.

The tea table, laid with a white linen cloth, was centered with a crystal bowl of the red and white blossoms, and white candles in crystal holders. American flags, and red, white and blue napkins completed the table decoration.
The receiving line was composed of Mrs. Haass, Miss Blalack, and her mother, Mrs. Wm. Wetta of San Antonio, and Mrs. Marvin Grell. Miss Snow was in charge of the bride's book.
Miss Blalack wore rose-pink crepe dress, Mrs. Wetta was in a brown and tan plaid Bemberg sheer, and Mrs. Grell wore brown dotted frock with brown eyelet bodice. The other hostesses were summer frocks in pastel colors.

Knowing that the properties of the San Antonio Public Service Company, which company is furnishing practically all the electrical current used by the residents and businesses of the City of Hondo, is now involved in litigation and the corporation holding and owning the controlling stock of the San Antonio Public Service Company has been ordered by the Federal Government to dispose of this stock and also knowing that the City of San Antonio is anxious to purchase that part of the properties (bldg. and serving the City of San Antonio, and that other cities being served by the San Antonio Public Service Company are also trying to buy that part of the distributing system in their respective cities.
The City of Hondo is also being served by the San Antonio Public Service Company and be it resolved that the City Council of the City of Hondo is anxious to purchase, and has been negotiating for the purchase of the distributing system of the San Antonio Public Service Company, in so far as the system serves the City of Hondo and the immediate community.
There is no reason why the City of Hondo should not own its own electrical distributing system and operate same as to further serve the interest of its own residents and businesses. The City aims to try and prevent any other private or government organization from getting the control of the local system.
JNO. A. HORGES, Mayor.

MCEHRING-BLALACK NUPTIALS HELD IN SAN ANTONIO

The marriage of Miss Patricia Blalack, daughter of Mr. and Mrs. Wm. Wetta of San Antonio, and Wesley Moehring, younger son of Mr. and Mrs. E. H. Moehring of Hondo, occurred at 8:00 o'clock Saturday night, July 11, 1942, in Zion Lutheran Church of San Antonio. Rev. Heinrich officiated.

The church was beautifully decorated with vari-colored zinnias and fern. Nuptial music was played and prior to the entrance of the bridal party Mrs. Olga Kinnard, aunt of the bride, of Luling, sang "Because".

The bride, who entered with her father, wore a lovely gown of white satin made with a brief train, and long sleeves, midriff and yoke of French silk lace. Her long veil of illusion was caught to a cap of white satin. The bride wore a gold locket and carried a colonial bouquet of white carnations.

The bride's attendants were her cousin, Miss Grace Barrett, as junior bridesmaid; her sister, Miss Leona Blalack, maid of honor; and Miss Zella Schweers and Mrs. Marvin Grell, the latter the bridegroom's sister, as bridesmaids. They were dressed alike in frocks of flowered organza, Miss Barrett in light blue, Miss Blalack in pink, and Miss Schweers and Mrs. Grell in light blue. They wore pink carnations in their hair and carried bouquets of the pink flowers.

Herbert Moehring assisted his brother as best man, and groomsmen were Marvin Grell and Edgar Saathoff. They wore blue suits and boutonnieres of pink carnations.

Following the ceremony a reception was held at the home of the bride's parents. Pink and white zinnias decorated the home and a crystal bowl of the flowers centered the lace-covered bride's table. The table was lighted with white tapers in crystal holders. The bride cut the first slice of the wedding cake, a large white confection adorned with pink and white flowers and topped with a miniature bride-and-groom. Punch and cake were served.

Mr. and Mrs. Moehring left on a brief bridal trip and are now residing in their new home built on the Moehring farm where Mr. Moehring is engaged in farming. He is a graduate of Hondo High School, class of 1940. The bride, a great granddaughter of Mr. and Mrs. R. W. Richter of Hondo, graduated from Jefferson High School in 1939 and attended the University of San Antonio for two years. She taught school at Castroville last year.

In the receiving line were Mrs. Zuberbuehler, Mrs. Tondre, her mother, Mrs. Joe H. Steine and Mr. Tondre's mother, Mrs. Joe L. Tondre. The honoree wore a navy and powder blue costume with a corsage of pink gladioli. Mrs. Zuberbuehler's frock was navy blue printed sheer and her flowers were peach gladioli. Mrs. Steine wore soldier blue and a corsage of peach gladioli. Mrs. Tondre's dress was black and white and she wore a corsage of white gladioli.

The lace-covered tea table had a centerpiece of yellow gladioli in a crystal bowl mounted on a mirror plaque and flanked on either side by white tapers in crystal holders. White gladioli in a pottery vase and double holders with white candles decorated the buffet.

Refreshments of frosted cake squares, chicken sandwiches, salted nuts, and punch were served.

Other members of the house party greeted the guests in the gift room and assisted in the various hostess duties.

The members of the house party wore afternoon frocks with corsages of gladioli in pastel shades.

CATHOLIC PARISH TO GIVE BENEFIT TO ESTABLISH SOLDIER CENTER
Until such time as the USO center goes into operation in Hondo, St. John's Catholic parish has undertaken the establishment of a center for the soldier boys who will be stationed at the Hondo Navigation School. Being a private unit, the funds incident to its operation will have to be raised by personal efforts. The parish, therefore, is sponsoring a benefit keno party which will take place on the church grounds Sunday, July 19, at 8:45 P. M., in order to raise funds for the center.

Not only the people of St. John's parish and parishes of surrounding towns but the public in general should be interested in helping in such a worthy cause.

The public is invited to attend.

R. H. POSEY ANNOUNCES STATE LEGISLATURE
R. H. Posey of Carrizo Springs authorizes the Hondo Anvil Herald to carry his announcement as a candidate for Representative of the District.

Mr. Posey is a native of Texas, but has lived in South Texas for many years, and in Dimmit County for fifteen years, engaged in agriculture, and for the past ten years engaged in the feed business in Carrizo Springs.

While the people of this section know him to the extent that he is no introduction, he hopes to personally with as many of the citizens as possible. His policy is to be "equal rights to all and special privileges to none." He has been a candidate or held a public office. He is a charter member of the Townsend Club and member of the Red Cross.

In a later communication Posey said:

"I find since announcing for representative it will be impossible for me to personally contact each of you. My platform, briefly speaking, equal rights to all, special privileges to none. That is justice. Justice is the foundation to God's law, and certainly should be the foundation of our government."

"I am no politician. I came to this race of my own free will and cord; was not influenced or nudged by any special interest. I am not obligated except to 90 per cent of the people who are of my class just common people and I am one of them."

"One of the main issues that come before the next Legislature is the clarifying of the pension law, the old people, 65 years old, have no income, may get their pension, and to remove the ceiling so the needy blind and dependent children for whom the law has already provided plenty money."

"We do not need to vote any tax bills, but we do need to consider what we already have and spend for a just cause."

"I do not believe in taxing the people for chicken suppers for politicians or to kick around our just like a football for political purposes."

"To me a public office is a trust and I pledge my word and honor to labor in that direction."

A summary of the past week's war events reviewed by The National Editorial Association Defense Advisory Committee in cooperation with the Office of Government Reports.

FOR RELEASE JULY 14, 1942

War Production Chairman Nelson, speaking in Detroit, said the U. S. will hit the "real" peak of its war production program by next March. Mr. Nelson said "Our ability to produce is much greater than any one dreamed. The armament objectives as announced by President Roosevelt last winter—and which seemed too vast at the time—will be readily realized. Our productive capacity is apparently limited only by the raw materials available.

"The engineering genius of American production, when turned from peace to war, has proved a reservoir no one could gauge," Mr. Nelson said. "When American men and machines stooped competing with each other and turned all their competitive energy and abilities against Hitler and Hirohito, it knocked all previous calculations of our productive powers into a cocked hat. The real problem now is not one of production. It is the problem of a better distribution of the materials from which war production springs."

Chairman Nelson said "At all costs—we must not get into the frame of mind that this is either an easy or a short job. If people build on false hopes of an easy victory or a short war, then they are certain to feel let down when the bad days come, as come they will."

Production And Subcontracting

WPB Chairman Nelson announced a "realignment" of the Board to permit him to devote his time to essential allocation policies between the needs of the Armed Forces and the civilian economy. He said essential civilian needs, such as those for the communications and transportation systems, must be met. The civilian economy, though "thin", must be kept healthy, he said. William L. Batt and James S. Knowlson were named Vice Chairmen of the Board.

Lou E. Holland, formerly President of the Double Rotary Sprinkler Corp., of Kansas City, Mo., was appointed WPB Deputy Chairman in charge of the smaller War Plants Corporation. Chairman Nelson said the Corporation should attempt to confine the manufacture of relatively simple war items to smaller factories, increase the farming out of manufacture of bits and pieces by large corporations which hold prime contracts, and encourage conversion of additional small plants to essential civilian production. The WPB estimated, however, that 24,000 small manufacturers whose annual sales three years ago amounted to \$4 billion, will be forced to close before October 1 because of inability to convert to war or essential civilian production.

The WPB said expenditures for war purposes by U. S. Government agencies in June were at the average daily rate of \$158 million, 6 percent higher than in May. Congressional war appropriations to date total more than \$225 billion, the Board said, but the U. S. actually has spent less than \$40 billion. The WPB Bureau of Finance obtained \$62 million in the form of loans or advances on payments for war materials for almost 400 manufacturers in June. During the past six weeks, the Army Signal Corps has given final acceptance each day to more than \$2 million worth of radio and communication equipment, and awarded contracts for \$1 billion worth of additional apparatus.

Labor Supply

Persons who desire jobs in plants working on secret or confidential Government contracts will no longer be required to turn in birth certificates to prove American citizenship, the War Manpower Commission announced. The WPB Labor Division said the aircraft industry will require more than 1,500,000 workers by the end of 1943. A total of almost 20 million persons will be drawn into war production and service in the Armed Forces during this year and next, the WMC reported. Consequently, employers can no longer afford to set arbitrary age limits or discriminate against workers because of sex, race or nationality, the Commission stated. The WMC said the United Electrical Radio and Machine

Workers of America (CIO) is conducting a drive in 40 war production plants to encourage hiring and upgrading of Negroes and workers in other minority groups.

Rationing

The OPA said about 8 million Eastern motorists have received permanent gasoline rationing coupon books. Congressmen, members of State and local legislatures and other Government officials will be eligible for "special rations" for use in legislative or official business, and bona fide political candidates may have extra rations for travel necessary to the prosecution of their candidacies, the Office said. Special rations will also be issued for travel to obtain medical service, to demonstrate cars or boats for sale, to transport equipment and personnel of scientific expeditions and to operate a vehicle in tests essential to the war effort.

The Office ruled newspaper reporters and photographers will be eligible for supplementary rations up to a quantity sufficient to permit 470 miles of occupational driving a month if they can meet car pooling provisions. Increased monthly gasoline quotas will be given stations servicing war workers. The WPB granted OPA authority to require filling station operators to submit coupons or other evidence that rationing regulations are being complied with, when gasoline is delivered to their stations. The OPA said local rationing boards may refuse to issue new tires to eligible motorists if an Inspector's report shows the purchaser has abused his old tires. The "bonus" sugar stamp, number Seven in War Ration Book No. 1, may be exchanged for two pounds of sugar until midnight August 22.

The War Front

Recent Far Eastern events indicate "the turning point in air operations has been reached and the Japanese are now more on the defensive whereas the American Air Forces are on the offensive," U. S. Army Air Forces Headquarters in China reported. U. S. submarines within two days sank or destroyed five Japanese destroyers in the Aleutians, the Navy said. The War Department said American troops are now stationed at Port Moresby, Allied base in New Guinea. The Department also announced that U. S. crews, manning American-made medium tanks, knocked out a number of German tanks in the battle of Libya in mid-June without any losses of their own personnel. Gen. MacArthur reported more Allied raids on numerous enemy bases in the Southwest Pacific. The Navy announced the torpedoing by Axis submarines of 16 additional United Nations merchant vessels.

War Information

Director Elmer Davis of the Office of War Information issued OWI Regulation Number One, stating "the Federal Government will issue as promptly as possible all news and background information essential to a clear understanding of this Nation's war effort. The impact of the war on all phases of American life will be reported. So will the cooperative efforts of the United Nations. Only information which would give aid and comfort to the enemy will be withheld." Mr. Davis established three major branches under himself and OWI Associate Director M. S. Eisenhower, with an Assistant Director for each branch. Gardner Cowles, Jr., President of the Des Moines Register and Tribune and President of Look magazine, was placed in charge of Domestic Information Operations; Robert Sherwood in charge of Overseas Information Operations; and Archibald MacLeish, Policy Development.

The Armed Forces

The Army Specialist Corps, with 190,000 applications for membership will enlist more than 11,000 men during the rest of this year, the War Department said. WAAC Director Hobby reported two of the first eight WAAC companies will consist of Negro women, commanded by Negro women, who will attend the first WAAC Officer Candidate School. President Roosevelt signed a bill authorizing \$8,500 million in new naval warship construction with emphasis on aircraft carriers. The Marine Corps said it is now promoting competent noncommissioned officers in the field to meet needs for additional officers.

Sabotage

Maj. Gen. Frank R. McCoy, head of the Military Commission convened by President Roosevelt to try the eight German saboteurs landed in the U. S. by submarine, said the great volume of evidence to be introduced is expected to prolong the trial. The Commission granted permission to the Army Signal Corps to make photographs and silent pictures of the trial scene in the Justice Department Building in Washington.

Washington Snapshots by JAMES PRESTON

Belief here is that the next few weeks may determine the length and course of the war. Sobering news from world battlefronts has caused Washington to gird for the hard, tough road ahead. "We must avoid at all costs," Lt. General McNarney, Deputy Chief of Staff, War Department, told Congress, "the error of underestimating the task ahead of us."

War plants, large and small, will soon bulge with a crop of new war orders which will pyramid on those already "in the works". In the broader application of the subcontracting process, the small shop, the high cost producer, will take a more prominent place in the picture.

Almost every manufacturer will be drawn into our huge war production machine, as the biggest of all war funds—43 billion dollars—was passed unanimously by the House and Senate approval will be routine.

Bullish news comes from the war production front with W. P. B. Chairman Nelson's announcement of industry's "cosmic records" and the first-time official output figures from President Roosevelt. Bad news for the Axis powers comes with his statement that during May industry produced nearly 4,000 planes, over 1,500 tanks, nearly 2,000 artillery and anti-tank guns and over 50,000 machine guns. If submarine guns were added to the latter figure, the total would exceed 100,000.

Eight directives designed to channel the nation's male population from 18 to 65, into occupations most useful to the war effort have been issued by the War Manpower Commission. Four of these orders specifically charge the U. S. Employment Service with responsibility for:

1. Maintaining lists of essential activities and occupations.
2. Establishing and expediting "placement priorities."
3. Encouraging transfers to essential activities and occupations which will be listed under Directive No. 2.
4. Recruiting and placing essential agricultural workers.

The other four directives charge the W. P. B., Selective Service, Dept. of Agriculture and "certain Government Agencies" with specific responsibilities pertaining to their normal functions.

—WSS—

After 16 weeks of all-day sessions, the House Ways and Means Committee has completed its work on the 6 billion dollar 1942 Tax Bill, which is still \$2.7 billion less than the treasury asked for. Some Senators and a number of Ways and Means members are dissatisfied with the bill, believing a sales tax should have been incorporated to soak up inflationary purchasing power.

While it is generally understood that the Committee would request a closed rule precluding any amendments on the House floor, a movement to revive the sales tax issue gained headway and there is a possibility of its revival either when the Committee takes up the final draft for approval or through the Rules Committee by means of a rule which would permit debate on the floor of the House.

TO GET JULY CHECKS

Austin, July 11.—It was announced today by the State Department of Public Welfare that Federal funds for making July payments to old age assistance recipients and aid for dependent children had not yet been received. The 176,413 old age assistance checks and the checks for dependent children for July payments have already been prepared and can be mailed as soon as the Federal funds are received by the State Treasurer. The delay in the receipt of Federal funds is the result of late Congressional action on the Federal appropriation bill for the Social Security Board. The bill providing Federal funds for old age assistance and dependent children was signed by the President only a few days ago. The Federal Social Security Board has already certified to the U. S. Treasury the amount of Federal money to be sent to Texas and now it is just a question of how long it will take the treasury to get the money to Austin.

"The Federal money for old age assistance and dependent children will be available in the near future and it is simply a question of how quickly the U. S. Treasury can complete all of the necessary accounting and disbursing details for sending the money to the State Treasurer at Austin," said J. S. Murchison, Executive Director of the State Department of Public Welfare. "From the information we have received, it is likely that the money will not be received in Austin until sometime next week. Checks cannot be mailed until the Federal money is deposited in the State Treasury. We want all the recipients who are on the old age assistance rolls to know that the money will be available and that they need not worry about receiving their July checks. The delay in mailing the checks will cause a hardship in many instances, and is hoped that grocery-men, landlords, or other persons with whom some of the old folks do business will understand that the old age recipients cannot pay their current bills until they receive their July checks."

MEDINA COUNTY BOYS JOIN U. S. COAST GUARD

Nineteen young men from San Antonio and South Texas left San Antonio Monday night to complete enlistment in the United States Coast Guard in Fort Worth, Samuel Eley, recruiting officer in San Antonio, announced.

In this group were Bernard Jungman, son of Mr. and Mrs. Alex Jungman Sr., of LaCoste; Harold Tripson of Mr. and Mrs. A. W. Trip of Macdonia, and Weldon Schorp, son of Mr. and Mrs. John Schorp of Fearsall.

THAT "SOMETHING ABOUT A SOLDIER"
STRONG APPEAL TO WIFE AND SONS

That "something about a soldier" which appeals to boys and girls is especially strong when the soldier is father and husband. That is shown in this family scene of Lieutenant Vernon Lemens, taken this week at Camp Hood, Temple, while his happy family were visiting him from their home in Waxahachie. Mrs. Lemens is completing her husband's campaign for Lieutenant Governor which he began before entering the army.

Vernon, Jr., age 6, shows a preference for the U. S. Army uniform of his father, while Bobby, age 3, wears the sailor suit selected by his mother.

Senator Lemens served in World War I, was an active Legionnaire and reserve officer in the peace period, and is now on duty as assistant adjutant with the tank destroyer command at Camp Hood. As Senator of the Twelfth District he will be granted leave to serve in Austin during the session of the Legislature under War Department rules governing reserve officers holding public office at the time of army induction.

He is asking a promotion to Lieutenant Governor so that he can preside over the Senate. He feels that his fourteen years of continuous legislative service and his military experience and standing especially fit him to direct the Senate in the wartime session ahead. The duties of Lieutenant Governor require no more time in Austin than those of Senator, which he now is.

RENTAL AREA DIRECTOR APPOINTED

The appointment of Fred C. Goeth as San Antonio Defense Rental Area Director has been announced by Price Administrator Leon Henderson in Washington.

Mr. Goeth, a life-long resident of San Antonio, is a member of the law firm of Goeth, Webb and Goeth. He received his LL. B. degree from the University of Texas in 1918, and was admitted to practice by the Supreme Court of Texas during the same year. He is a member of the San Antonio and Texas bar associations, and is widely experienced in legal and real estate activities. As an alumnus of the University of Texas School of Law, Mr. Goeth has maintained an active interest in the Texas Law Review. He also helped organize and has served as president of the Texas Ex-Students' Association in San Antonio.

During the Great War Mr. Goeth trained at Fort Sam Houston and became a second lieutenant in the Texas Cavalry. Later he transferred to an artillery unit and was stationed at Fort Monroe, Virginia. He has a son who was admitted to the United States Military Academy at West Point as a cadet on July 1 this year.

In addition to his law practice, Mr. Goeth owns a stock farm in Bexar county and is vice-president of the Central-South Texas Hereford Breeders' Association. He is vice-president and directing manager of the Willow Springs Golf Association, and has been active in charitable work.

As Area Rent Director, Mr. Goeth will administer Federal rent control in eight counties—Bexar, Atascosa, Medina, Kendall, Comal, Bander, Wilson and Guadalupe. He will assume his new duties Monday.

In taking office, Mr. Goeth asserted that the maximum rent regulations would be administered fairly and impartially and that complaints by either landlords or tenants would be given prompt attention.

"This is not a punitive law aimed at any particular group of people," he said. "It is designed to keep down living costs and assure the best possible use of available housing facilities. March 1, 1942, has been chosen as the Maximum Rent Date for this area after careful study. In general, tenants pay no more rent than they were paying on that date for the same accommodations, and landlords may charge no more. Without rent control, prices for housing accommodations in congested areas might become inflationary. Not only would property values be jeopardized, but the cost of war would be increased."

The Area Rent Director's office is at 304 Majestic Building.

MEDINA HOME DEMONSTRATION WOMEN PLAN FOR STATE MEET

Unlike many organizations which are cancelling conventions for the duration, the Texas Home Demonstration Association will hold its annual statewide meeting in August to forward the war work of farm and ranch women. The convention is to be held in Fort Worth August 18-20.

Despite transportation difficulties, leaders expect home demonstration clubs in 182 counties to be represented at the meeting.

Only out-of-state guest invited to appear on the program is Mrs. Claude R. Wickard of Washington, D. C., wife of the Secretary of Agriculture. In addition to numbers of rural women who will participate, other speakers include Dr. Robert Sutherland of Austin, director of the Hogg Foundation, University of Texas, and Miss Mildred Horton of College Station, vice director and state home demonstration agent of the A. and M. College extension service.

Each of the nine Home Demonstration Clubs of Medina County will elect a candidate from which those delegates will be elected to represent this county at this state meet. There, from the above program they will learn what other farm women are doing to promote war activities.

Printed stationery bought in quantity is cheaper in the long run than the other kind purchased in dribbles as used. Besides it looks better from a business and social standpoint. Tell your needs to telephone 127. tf.

Mr. and Mrs. P. C. Jagge of Upper Hondo and Mr. and Mrs. John Zuberbuehler of Dunlay left Monday on a trip to Monterrey, Mexico.

WHAT DOES THE P-T. A. MEAN?

This is the first of several articles designed to make the meaning and

purpose of the Association of Parents and Teachers a little clearer so that you may come to enjoy this wonderful organization to the fullest extent.

First, what is the P-T. A.?

It is an Association of Parents and Teachers bound together by the common bond of the Child.

On first glance this seems a dull and prosaic subject to most people but let's look deeper.

Parents, to begin with does not mean Mothers. Parents means Mothers and Fathers. Thus the title P-T. A. means Mothers, Fathers, and Teachers. Why have an organization of mothers and fathers and teachers? What good is it?

Mothers, Fathers, and Teachers bound together by the common bond of the child, regardless of religious creed and station in life, is the most effective way to deal with all problems of childhood. Thus, a far-sighted woman, Mrs. Ella Caruthers Porter, many years ago started the organization known today as the National Congress of Parents and Teachers.

When the first guiding principles and projects were listed there was no clause in them that says any one of the many and varied religions would be either more favored or unfavored than any other. Neither was there any thing said about the type of school the child was attending. It can be either public schools or those schools known as denominational schools. The one and only important thing is, that the members of any P-T. A. have a deep and burning desire to be better equipped to guide the channels of childhood in the best paths with the least resistance from the child, and a natural love of children with which to season the rules and regulations your local unit of Parents and Teachers will teach you. Your unit will show you how to live in a beautiful way with grace and dignity. Pride cost nothing as far as money is concerned and your P-T. A. membership can and should be worn with a great pride and dignity. In belonging to a local unit you are a cog in a great international unit comprising units in all forty-eight states of the United States and in the Hawaiian Islands, Great Britain, and several countries on the continent of Europe. This is the organization of Parents and Teachers.

natural resource industries, manufacturers of all kinds, our financial institutions, our agencies of distribution, transportation, power and communication—these and all other enterprises must be given new freedom and new life. We must say to them: "Build, expand, take chances, pioneer—so that the end will be permanent freedom, and a higher standard of living for all." The haunting fear of growing government competition with private endeavor must be laid by the heels. That must be the destiny of a free people.—Industrial News Review.

HAVE YOUR BUCKET READY

The United States has been shell-ed by enemy warships. It is completely possible that, before long, the United States may be attacked from the skies. And if those attacks come, fire bombs of one kind or another will be one of the principal weapons used. Unless this country is ready to deal with fire on an unprecedented scale, disastrous damage to our homes, our factories and our farms will be inevitable.

In connection with this, James M. Landis, Director of the Office of Civilian Defense, recently said: "Obviously the first thing that is apparent is that the fire-fighting forces of every city have to be enormously expanded. Recruiting, training, auxiliary firemen, and the retraining of existing forces, are thus a mandatory obligation of every community in the vast target areas of this country. And this program cannot wait. It must not only be begun, but be completed now. We cannot wait for the fire-fighting forces to be equipped to roll off the production line and blame delays that we can avoid upon delays that are beyond our power to control."

In many localities, volunteer auxiliary fire-fighting organizations were started with enthusiasm some time ago. Then that enthusiasm was slowly lost, and at the present time the effort has bogged down. And the loss is precisely what our enemies want. They aren't going to tell us where they will attack, or where they will depend upon surprise—and an ill-prepared nation would be an easy victim.

Every house should be a fire house. That simply means that the people should be ready to combat fire whenever and wherever strikes. We must prepare thoroughly. Every day brings the time of possible attack closer.—Industrial News Review.
